

Bridge to Your Heart

10cc

One, two, one, two, one, two, three, four
Hold it now

You hoo hoo you've been gone for so long
I'm losing sleep
Look at what you're doing
And I- I- I yes I know that I was wrong
But I couldn't see
See what I was losing

Come back now baby
Little run around
Little run around
Little lost and found
Little lost and found
Don't make me crazy
Just bring your body back home
Right here where you belong

Whoa
Building a bridge to your heart
Whoa
Let's make a new start
Build a bridge to your heart

I don't know what the future's gonna be
Good or bad
Good or bad
Time won't be your saviour
And I can't give you no written guarantee
I won't make you sad
I won't make you sad
But I'll be on my destination

Look what you're doing
When you put me down
When you put me down
Made me the clown
Made me the clown
Look what you're doing
Just come on over and see
Just how much lovin's in me, yeah

Whoa
Building a bridge to your heart
Whoa
Let's make a new start
Build a bridge to your heart

I'll take you any way I can tonight
Come back and satisfy my appetite
You gotta know you mean that much to me
To get you back you know I'll do anything

Come back now baby
Just bring your body back home
Right here now baby here you belong

Whoa
Building a bridge to your heart
Whoa
Let's make a new start
Build a bridge to your heart

Whoa
Building a bridge to your heart
Whoa
Let's make a new start
Build a bridge to your heart.
