

## Grow Old With Me

10cc

You said you will  
You said I do  
Now that's the best thing  
For me and you  
We'll stick together our whole lives through  
Grow old with me

Starting out just the two of us  
Pretty soon they'll be a few of us  
We'll love and cherish and give our trust  
Grow old with me

Pretty face got it all worked out  
What we did today leaves me in no doubt  
That dreams come true  
And now I'm whole  
I fell in love - heart and soul

You've given more than words can say  
You took the lead and you showed the way  
A new beginning for us today  
Grow old with me

Grow old with me

Pretty face got it all worked out  
What we did today leaves me in no doubt  
That dreams come true  
And now I'm whole  
I fell in love - heart and soul

You said you will  
You said I do  
Now that's the best thing  
For me and you  
We'll stick together our whole lives through  
Any fool can see - you're gonna  
Grow old with  
Old with me  
Grow old with me  
Grow old with me
