

# Nothing Can Move Me

10cc

There's talk about some people  
That maybe you know  
The heroes and the villains  
And the places that they know

The highest and the finest  
The lowest of the low  
Just stop and get it through you  
There's somewhere you can go

Tell you what I do when I'm lonely  
I'll tell you what I do when I'm blue  
Tell you what I do when I'm lonely  
I close my eyes and think about you

('Cause) nothing can move me like my rock n roll  
Nothing can blow me away  
Nothing can move me like my rock n roll do  
Nothing can move  
Nothing can move  
Nothing can move me away

You wake up in the morning  
The wrong side of the bed  
The spirit that was in you  
is hammering your head

You crawl up to your hi fi  
Select a side or two  
Sharpen up your needle  
and feel it coming through
