Transistorised, and anodised Chrome plated, squeaky clean Oh Tokyo, oh Tokyo Oh Tokyo I love you

You're trembling, you're choking
But you're magical to me
Oh Tokyo, oh Tokyo
Oh Tokyo I love you

Kimonos, and Geisha girls From grade one, down to three Oh Tokyo, oh Tokyo Oh Tokyo I love you

Land of the rising sun
You have taken my heart away
With your beauty you nearly blinded me
In your beauty I want to stay

I bow to you with my heart
I think of you every day
When I dream you are there beside me
But when I waken you're far away

Perfection, in miniature With tiny hands, smiling eyes Oh Tokyo, oh Tokyo Oh Tokyo I love you Tokyo

When I dream you are there beside me
