

Time to Remember

1208

I want to take time to remember
Cuz I always make time to forget
When it usually ends in disaster
I know its not over yet (its not over yet)

Right here
I face the crowd alone
With nothing
And I know I'm on my own
Even if I wanna get high today
I'm living in my head
And it'll be okay
I know I can't
I care enough to say

It's finished
Since I saw through open eyes
Without you
I wasn't strong
I never quite
Even if I wanna get high today
I'm living in my head
And it'll be okay
I know I can't
I care enough to say

stop the track
to look back
see how much has changed

stop my track
to look back
see how much has changed

(ahhhhhh)
see how much has changed (3x)
