

Afterglow

16volt

Can you make me feel again?
I'm alone again
I'm a dull, dead end
It's all good
When I'm feelin' it
When I'm real and then
I go back again

All things come
All things go
Lights burn out
Darkness grows
Fields of ash
Angels fall
I fail to see
An afterglow

Can you make me real again?
There's no subtle end
In a loop again
It's so gone
Can you feel it?
It's a calm quiet
And I'm scared of it

All things come
All things go
Lights burn out
Darkness grows
Fields of ash
Angels fall
I fail to see
An afterglow

All things come and all things go
Wish I had a way to make it slow
Everything's goin' by way too fast
Wish I had a way to make it last

All things come
All things go
All things come
All things go

All things come
All things go
Lights burn out
Darkness grows
Fields of ash
Angels fall
I fail to see
An afterglow
