

Christmas Time

2 Brothers on the 4th Floor

Christmas time and we are young
Let's all join hands
Come on and sing along
We will change a world today
So it will be a better place to stay
So another year has perished
And what have they reached?
At this moment people are still judged
On the color of their skin
People are dying of hunger and AIDS
And children are killed for money
So this is Christmas
But it doesn't matter if you're black
White, yellow, brown or red
If you're rich or poor
So let's all join hands
Cause we are the new generation
And we will sing this song together
All over the world
