

Hurricane

2AM Club

They say something like it's a tsunami, I'm in Miami
I'm Spinning like the street signs when the storm smashing
See you commin down the street lookin all happy
Wind pushin at your clothes lookin all classy
Like a model in a picture I stare into your eyes
I tell you to leave, yes but I pay you to fly
I barley can breath, yes you bare in the skies
But I can see you in the sky

Come on you bring me when I'm down
I only love you for the price you pay
Life is a circle but I'm afraid to say
We're spinning something like a
Hurricane a hurricane
So listen to me come
I only love you for the time you save
Life is a circle I'm afraid to say
We're spinning something like a
Hurricane, a hurricane

They say you're something when I see you're my lady Katrina
I never would leave her but my baby's a leader
Mercedes you see that
Wish you could ride with me
And you don't know about me crazy you would drive with me
And you would come lip sticks, red drippin face
Close look at your hips, I'm hugging your waist.
I'm lovin the taste of my...
I only love you for

Come on you bring me when I'm down
I only love you for the price you pay
Life is a circle but I'm afraid to say
We're spinning something like a
Hurricane a hurricane
So listen to me come
I only love you for the time you save
Life is a circle I'm afraid to say
We're spinning something like a
Hurricane, a hurricane

If you could just tame my
You can go on and on yeahhhh
And you can just tame my
And we can go on and on forever yeah

Come on you bring me when I'm down
I only love you for the price you pay
Life is a circle but I'm afraid to say
We're spinning something like a
Hurricane a hurricane
So listen to me come
I only love you for the time you save
Life is a circle I'm afraid to say
We're spinning something like a
Hurricane, a hurricane

You bring me when I'm down
I hope I tell you for that time
That you were always on my mind
You're spinning something like a hurricane a hurricane
So listen to me come
I only love you for a day
And it'll go a faster day
You're spinning something like
A hurricane a hurricane, a hurricane.
