

Ready to Go

2AM Club

I've got five minutes left
Absinthe inside my chest burning
We star-crossed
I start winning, the innocence lost
She wants to stay for a little
But I hate the girls that she brought with her
So I get myself up out
Meet me in the back, bring your mouth
Meet me in a place we both can leave
These stuck up drinks and this awful scene
I can't, I wanted to
But they made me feel like killing you
But I love when we're alone
The way you look through a camera phone
The way you talk in a brand new tone
I just wanna get home

Meet me in the back, babe
We'll fall in love
Away from the people
To be alone with you

You know that I'm ready, I'm ready to go
 You know that I'm ready, I'm ready to go
 You know that I'm ready, I'm ready to go
 You know that I'm ready, I'm ready to go

I've got two minutes in this room with you
I don't really care if everybody in this room with us burning
We light up the night
Fireflies, high off life
She wants to dance for a little
But these high heels are all she brought with her
So she gets her feet up out
Meet me in the back, bring your mouth
Meet me in a place overseas
You close your eyes and your over me
I can't, I wanna stay
'Cause you make me feel like a holiday
And I love when we're alone
The way you look through a camera phone
The way you talk in a brand new tone
I just wanna get home

Meet me in the back, babe
We'll fall in love
Away from the people
To be alone with you

[illegible]

What happens when those lights shut, shut down?
Shut, shut down
You gonna run away this time?
I wanna be there when it shuts, shuts down
Shuts, shuts down
And I hope it's me that's on your mind

Go, go, go, go
Go, go, go, go

You know that I'm ready, I'm ready to go
You know that I'm ready, I'm ready to go
You know that I'm ready, I'm ready to go
You know that I'm ready, I'm ready to go
You know that I'm ready, I'm ready to go
You know that I'm ready, I'm ready to go
You know that I'm ready, I'm ready to go
You know that I'm ready, I'm ready to go
