

Visualize

2gether

Sometimes we must live through the darkness
in order to see through the light
We must visualize

Close your eyes, visualize
the most beautiful girl that could be
Just one sight, mesmerize
it's like gazing right in a sea

Floating down the street
she stands out like a candlelight
When I look in her eyes
I'm not having sight
couldn't change this feeling

So I walk towards her
with a vision in my mind
With a hand on my face
and a smile on hers
I softly say goodnight

Close your eyes, visualize
the most beautiful girl that could be
Just one sight, mesmerize
it's like gazing right in to the sea

Never dreamt of one who possessed
this gift of gold, gift of gold
She sees beyond through the darkest paths
she knows my soul

Will she be my girl
if she loves this world
will I ever know
When the time is right
she will be my light
She is my angel

Close your eyes, visualize
the most beautiful girl that could be
Just one sight, mesmerize
it's like gazing right in to the sea

With a touch of the sand
from a far away land
gazing at perfection in the palm of my hand
A touch from her face
that far away place
there's no one above her
her spirit & grace

Close your eyes, visualize
the most beautiful girl that could be
Just one sight, mesmerize
it's like gazing right in to the sea

Close your eyes, visualize

the most beautiful girl that could be
Just one sight, mesmerize
it's like gazing right in to the sea

Yeah I'm walking
in the misty air
in my mind my baby is there
Having you in my life
is my only care
sooner so that we can dream

Close your eyes, visualize
the most beautiful girl that could be
Just one sight, mesmerize
it's like gazing right in to the sea
