In these hearts of love, that's where my Christmas lives

2. Snow on the window, asleep by the fire
And somehow these children never get tired
Missing the ones that we wish were here
Remembering the ones who look on but we don't shed a tear

R: I wanna feel the love that's in the hearts
Of all the ones that make us who we are
Thankful for the ones we have and what we have to give
In these hearts of love, that's where my Christmas lives
In these hearts of love, that's where my Christmas lives
