

I wanna do what's right  
Be kind to every single body  
Open up to light  
Just let it flow through  
My body

But sometime's  
I'm unsure (2x)  
I tell my baby

I'm slippin' into darkness  
I'm creepin' into darkness  
I don't want to start this  
I'm attracted to darkness

Be positive with love  
Just see the good in everybody

But sometimes  
I'm unsure (2x)  
I tell my baby

There's something going on  
In my heart  
I feel it weigh me down  
So I reach up for  
Wide blue sky  
Try to pull it into  
The deep arc of my arms

I'm slippin' into darkness  
I'm creepin' into darkness  
I don't want to start this  
I'm attracted to darkness
