## **An Agreement Called Forever**

36 Crazyfists

Cave in and try to take away All that I have, all I betray... So much damage I've done Well this I know, that I just fail

Turn me on me Turn me on me 'Cause this is everything I've stripped away I've stripped away

This is me, well this I know This is me, well is it?

Well the youth has certainly gone away And at times I'd like to erase... Please don't see that I can't have loyalty 'Cause I just fail

Turn me on me Turn me on me 'Cause this is everything I've stripped away I've stripped away

And I have tried to sit you down and take the fall Look you in the eye and tell you it all And I have tried to sit you down and take the fall To look you in the eye and tell you it all....I fail

'Cause this is everything I've stripped away I've stripped away

This is me, well this I know This is me

I fail...

'Cause this is everything I've stripped away I've stripped away
