

## One More Word

36 Crazyfists

Spill it all over, just like you used to  
Reason to be strong  
But you don't like me, but you don't even know me  
I will save me, I will save me

Please fight for me

Shut down in another light, in a hole not yet sewn  
Words that make you sickened inside  
But you're sucked down in a steady strife  
and you bleed without halo  
I can tell now, I can tell now

Please fight for me

Shut down you don't know us all  
Shut down you don't know us all  
Shut down you don't know us all  
Shut down  
It's all inside, so far  
It's all inside

One more word, I'm asking you to come and get it

You don't want to wake up and kiss it goodbye

Please fight for me

Shut down you don't know us all  
Shut down you don't know us all  
Shut down you don't know us all  
Shut down  
It's all inside, so far  
It's all inside, so far
