

## Never Be Lonely

.38 Special

Says she wants to dance real slow  
Real slow  
It's gettin' late and it's time to go  
But I don't wanna know  
Feels strange to be holding on to someone new  
After so long  
Don't tell me what I need to hear  
Tell me what I wanna hear  
And baby make me believe it

Say I'll never be lonely again  
I don't need a lover tonight just a friend  
I know I'm lost but maybe you found me  
Tell me lies and put your arms around me  
Say I'll never be lonely again  
Help me to pretend

Whisper to me it'll be alright  
And it'll be alright  
I guess it's you & me against the night  
And it's a long brutal night  
& if I'm dragging you into my life  
That's the price of the ticket  
It's good to have you along for the ride  
Now speak those words  
I don't care if you don't mean it

In a world of hurt  
You need someone you can bleed on  
A true friend  
But nothing's ever for sure  
Sometimes a friend can be  
Long gone

Says she wants to dance real slow  
Real slow  
It's gettin' late and it's time to go  
But just lie once more  
Baby make me believe it

You know I'm lost but maybe you found me  
Tell me lies and put your arms around me  
Say I'll never be lonely again  
Help me to pretend
