

## You Be the Dam, I'll Be the Water

.38 Special

Seems as long as I've been knowing you  
Something has bound us kept us as two  
You for me and me for you tried and true  
But what we need now is anchor and chain  
I get the feelin' we're drifting away  
Clouds collecting on horizon again  
Oh o oh it looks like rain baby

You be the dam , I'll be the water  
Hold back the tide  
Just a little bit longer  
We gotta make a stand  
Gotta get stronger  
Pullin' at you  
Tuggin' at me baby  
You be the dam, I'll be the water

Woke up floatin' like a dove on the gulf stream  
Makin' love in the afternoon can ease any pain  
We find the deepest part of our hearts  
What good are we right now if we don't even try  
Wrap it up pack it in say our sweet goodbye  
Whatcha gonna do pretty baby when the well runs dry  
Woh o oh we'll pray for rain baby

One heart beat at a time  
After stormy weather  
The sun's gonna shine  
Gonna keep our lovin' alive  
We can survive baby

You be the dam, I'll be the water  
You be the dam, I'll be the water
