

## Do or Die

3OH!3

We on three nights and no sleep  
Row with those who know me  
We chilling I'm so high  
Yeah you can find us in the nose bleeds

Fresh kicks and yes  
It's a diamond on both feet  
We living like we don't care what tomorrow's gonna be  
Everybody in this place is either blind  
Or gonna see that everything I need is right in front of me

So throw your phone away  
And let the night decide  
'Cause when the sun goes down  
You better pick a side

'Cause baby it's do or die  
Baby it's do or die

So throw your phone away and let the night decide  
'Cause when the sun goes down  
Baby it's do or die

Four nights still awake  
Shakes so bad I need to take  
One shot for my lady and twenty for those that got away  
Don't feel bad  
I'm okay  
Watch me transform Micheal Bay  
Fanning on the table shouting,  
Warriors come out and play

So throw your phone away  
And let the night decide  
'Cause when the sun goes down  
You better pick a side

'Cause baby it's do or die  
Die

Baby it's do or die

So throw your phone away and let the night decide  
'Cause when the sun goes down  
Baby it's do or die

I'm thinking that this beast is a part of me  
'Cause I can't seem to sleep for the death of me  
So I throw away my phone and let the night decide  
And I can't ever settle down until the day I die

Oh no  
We did it again  
We stayed up all night, we ain't sleeping in  
You don't know  
Where I have been  
I have the devil hiding underneath my skin

DRINK UP  
We need our medicine  
If we wanna dive into the night my friend  
Everything  
Comes to an end  
So you know this time it's do or die again

It's do or die  
Die

Baby it's do or die
