

# Crash And Burn

## 4 Strings

The same old state of mind I know  
There's an extra mile to go, I need you, I want you  
Seven days and seven nights, you're the picture on my mind  
You know I'm not over you, I crash and burn for you

I'll be your shadow on the wall the one you call your weekend 1  
over  
I crash and burn, for you  
I'll be your shadow on the wall the one you call your weekend 1  
over  
I crash and burn, for you  
I crash and burn, for you  
I crash and burn, for you

The flames' still bright and I don't know  
Should I stay or should I go? I need you, I want you  
I owe myself another try, to make sure I'm still alive  
You know, I'm not over you

I'll be your shadow on the wall the one you call your weekend 1  
over  
I crash and burn, for you

I'll be your shadow on the wall the one you call your weekend 1  
over  
I crash and burn, for you  
I'll be your shadow on the wall the one you call your weekend 1  
over  
I crash and burn, for you  
I crash and burn, for you
