

## All About You

40 Below Summer

Hey baby, I'm choking (I'll help you breathe)  
Hey baby, I'm smoking (I'll set your mind at ease)  
I feel you inside (what do you want from me)  
I want you to open wide  
I'm needing to touch you (do you fiend for me)  
I'm needing to fuck you (would you bleed for me)  
And you wanted it all - Before I fall  
Hey girl, better get up and move -  
Watch that ass, cause I come to groove  
When I tasted you, then I wanted more -  
Inside you I was reborn  
Lay down and you injected -  
Fill my veins up - I've been infected  
Your disease runs through me -  
Fills me up every time you do me  
It's all about the pain you put me through -  
It's all about the pain you put me through -  
It's all about the pain you put me through -  
It's all about you  
Hey woman, come thrill me (all night long)  
Hey woman, come fill me (I'll make you strong)  
I can feel the way you (The way I what)  
You touched me with betrayal (and I tear you up)  
I loved you, you moved me (I'm your little girl)  
Your very touch consumes me (step into my world)  
And then you'd rape me -  
And then you'd disgrace me  
Open up and heed my words -  
Listen up as I kick the verbs  
Walk the line of love and disturbed -  
You're gonna get just what you deserve  
I don't want you, I don't need you -  
I love you, but I don't believe you  
You're just a waste of time -  
Get the fuck out of my mind  
It's all about the pain you put me through -  
It's all about the pain you put me through -  
It's all about the pain you put me through -  
It's all about you  
I can't kill all this pain - you know I burn in hell -  
Can't refrain I just might as well go insane inside  
I'm screwed - you ripped my heart in two -  
There's nothing that I can do All the shit you put me through -  
I still love you (do you really)  
It's all about you (it's all about me)  
I'd do anything for you  
(bitch)
