

## Blame Your Parents

54-40

Deschooling grind breeds unrest adult children get  
Depressed transparent self will always fail archaic  
Man leaves a trail subhuman rubbed in parading  
Eyes libido pastures and the drug-nose highs horns  
And hooves, quest for death existential vacuum  
Becomes a rest memory's lost to pride puppets all  
Take up slack single minds won't give it back  
Unconscious God broadcast fraud selfish goals  
Defer the cost tribal order, suicide superego suckling  
Genocide blame your parents' broken image blame  
The counter-culture and the global village memory's  
Lost to pride Freud was wrong, he told a lie it was child  
Abuse and Oedipus should die he milked the brain's  
Trance-like state blame your parents memory's lost to pride
