

## All This Time

### 7eventh Time Down

Now more than ever  
I see it so clear  
There was never a moment  
That you were not here  
Through every valley  
At the end of my rope  
You never let go

Looking back I see it  
It's always been You, Jesus

All through the years  
Every tear that I cried  
You have been faithful  
All this time  
You've been the one  
Holding my life  
God, You have never left my side  
Even after all this time  
After all this time  
You show me the heart of a Father  
Again and again  
You've been holding my life  
All this time

And now from this mountain  
I'll hold my hands high  
To the God of my victory  
The hope of my life  
I stand in the wonder  
Of all that you've done  
All that you've done

All through the years  
Every tear that I cried  
You have been faithful  
All this time  
You've been the one  
Holding my life  
God, You have never left my side  
Even after all this time  
After all this time  
You show me the heart of a Father  
Again and again  
You've been holding my life

In the moments I had nothing left  
You gave me one more step  
You gave me one more breath  
So I can stand now with a confidence  
No matter what comes next  
I remember this

All through the years  
Every tear that I cried  
You have been faithful  
All this time

And You've been the one  
Holding my life  
God, You have never left my side  
Even after all this time  
After all this time  
You show me the heart of a Father  
Again and again  
You've been holding my life  
All this time  
All this time  
You show me the heart of a Father  
Again and again  
You've been holding my life  
All this time
