

Brand New Day

7eventh Time Down

You're painting my heart like a canvas
Mapping me out like an atlas
Pulling me to you like a magnet
You're painting my heart like a canvas

Everyone says you're a Rembrandt
Picasso, so ahead of your time
You're so timeless

It's a brand new
It's a brand new day with you
I found my way with you
I cannot deny the truth
It's a brand new
I throw my heart inside your hands
No more standing in quicksand
Every gray sky is blue
It's a brand new

It's a brand new
It's a brand new day with you
I don't ever wanna hide the truth
All my friends gotta feel the groove
It's a brand new

I never knew life could be like this
I was looking at love from a distance
I got a taste of freedom and forgiveness
I never knew life could be like this
I got this

Everyone says you're a Rembrandt
Picasso, so ahead of your time
You're so timeless

It's a brand new
It's a brand new day with you
I found my way with you
I cannot deny the truth
It's a brand new
I throw my heart inside your hands
No more standing in quicksand
Every gray sky is blue
It's a brand new

It's a brand new
It's a brand new day with you
I don't ever wanna hide the truth
All my friends gotta feel the groove
It's a brand new

I don't like me without you
You know I can't breathe without you
I haven't been lost since the day I found you
It's a brand new day
I don't like me without you
You know I can't breathe without you

I haven't been lost since the day I found you

It's a brand new day with you
I found my way with you
I cannot deny the truth
It's a brand new
I throw my heart inside your hands
No more standing in quicksand
Every gray sky is blue
It's a brand new

It's a brand new day with you
I don't ever wanna hide the truth
All my friends gotta feel the groove
It's a brand new
It's a brand new day with you
I don't ever wanna hide the truth
All my friends gotta feel the groove
It's a brand new
