

# Hopes and Dreams

7eventh Time Down

I've got to tell you something  
It might change your life  
I once was lost and broken  
Just like you are tonight  
All out of options  
Living with no hope  
But now I'm done with walking  
Down those same old dead end roads

I have seen the light  
I have come alive  
I tell you I believe in  
The God of hopes and dreams  
Never felt this before  
Tomorrow is an open door  
He's got big plans for me  
The God of hopes and dreams

I know His ways are perfect  
Amazing and divine  
One taste of life abundant  
Absolutely blew my mind

I have seen the light  
I have come alive  
I tell you I believe in  
The God of hopes and dreams  
Never felt this before  
Tomorrow is an open door  
He's got big plans for me  
The God of hopes and dreams

Right now - anything is possible  
Caught up - on a love unstoppable  
Don't know what my future holds but I know  
Know Who holds it

I have seen the light  
I have come alive  
I tell you I believe in  
The God of hopes and dreams  
Never felt this before  
Tomorrow is an open door  
He's got big plans for me  
The God of hopes and dreams
