

I Still Believe

7eventh Time Down

In the game of hate
Nobody wins
I see everyday
People suffering
This world keeps coming for us
May we rise up in love
Let the believers sing

I still believe
In the cross
In the blood
In the love of a risen King
And for me it means
That I'll live
Just to give
My everything
When this world falls down around me
I'll stand and testify
To a love I can't explain or deny
Cuz I still....believe

Jesus You're right in here in front of me
In the face of my fears
And my enemies
This world keeps coming for us
May we rise up in love
Let the believers sing

I still believe
In the cross
In the blood
In the love of a risen King
And for me it means
That I'll live
Just to give
My everything
When this world falls down around me
I'll stand and testify
To a love I can't explain or deny
Cuz I still believe

This world can't break me down
No oh oh oh
No one can take my faith
No oh oh oh
No matter what comes
I won't run
I won't turn away
I still believe
I still believe
In the one true King
In the one true King
Believers sing

I still believe
In the cross
In the blood

In the love of a risen King
And for me it means
That I'll live
Just to give
My everything
When this world falls down around me
I'll stand and testify
To a love I can't explain or deny
Cuz I still believe
