

## Lean On

### 7eventh Time Down

I know just how you feel  
When you're too tired to stand up  
I know just how you feel  
I know it's hard to believe  
When you wanna give up  
I know just how you feel

You can lean on everlasting arms  
When your strength fails and your faith is worn  
You'll be safe here from all alarms  
You can lean on everlasting arms

I know just how you feel  
When you've done all that you can  
And it's still not enough  
There is a peace more real  
There is a place you can rest  
There's Someone you can trust

You can lean on everlasting arms  
When your strength fails and your faith is worn  
You'll be safe here from all alarms  
You can lean on everlasting arms

He will hold you up and never let go  
My God will hold you up,  
He'll never let go 2x

You can lean on everlasting arms  
When your strength fails and your faith is worn  
You'll be safe here from all alarms  
You can lean on everlasting arms 2x
