

Love Parade

7eventh Time Down

I'm like a love sick puppy
Chasing you around

Just like a rolling stone

Ain't nothing holding me down
This world is crazy falling
In and out of love everyday
I believe we're on a mission got a vision
We've got something to say

We are the love parade
All over the world
Salvation is heard
We are the love parade

We shine like sun
Salvation has come
We are the love parade

Come and join the revolution
Love your neighbour as yourself
We'll get the whole world shaking
Walls are breaking
As we're marching around your town

You shined your light on me
So now I've got to sing
You shine your light on me

The mountains will fall
At the sound of our drums
We are the love parade
