

Religious and Famous

7eventh Time Down

Down home, southern to the bone
we've made mistakes, God only knows
From L.A. to New York we've been enticed
but You saved our lives

Never gonna put our name in lights

We are not religious and famous
We don't wanna be the ones that you talk about
Never wanna be religious and famous
We are the ones who will remain nameless

Far from home, broken, so weak
They drive the nails, and laugh as you bleed
You gave Your life just to be with me
Now I believe

Oh! Won't stop until Your name's in lights

We are not religious and famous
We don't wanna be the ones that you talk about
Never wanna be religious and famous
We are the ones who will remain nameless

Never wanna be religious and famous

He gave it all away to keep me blameless

Shootin' out the lights
We're bringin' them down tonight
Shootin' out the lights

Never wanna be religious and famous

We are not religious and famous
We don't wanna be the ones that you talk about
Never wanna be religious and famous
We are the ones who will remain nameless

We are not religious and famous
We don't wanna be the ones that you talk about
Never wanna be religious and famous
We are the ones who will remain nameless

Shootin' out the lights
We're bringin' them down tonight
Shootin' out the lights

Shootin' out the lights
We're bringin' them down tonight
Shootin' out the lights
