

# World Changer

7eventh Time Down

I'd chase the sun for You  
I'd even rope the moon for You  
Because You love me

I'd chase the sun for You  
I'd even rope the moon for You  
Because You love me

Everyday's a melody  
A new song you have given me to sing  
Because you love me

This could be the song I've been waiting for

I wanna be a world changer  
A world changer for You

I wanna be a world changer  
A world changer for You

My life is so much more  
And I could win one thousand wars with You  
Because You love me  
So now I fall back into You  
With new scars and a lot of bruises  
but it was worth it

You simply are the one I've been waiting for

I wanna be a world changer  
A world changer for You  
I wanna be a world changer  
A world changer for You

One life can change the world  
One life, One life can change the world  
One life can change the world  
One life, One life can change the world

You're in my heart, You're in my soul  
I wanna be a world changer  
You're in my heart, You're in my soul  
I wanna be a world changer  
You're in my heart, You're in my soul  
I wanna be a world changer  
You're in my heart, You're in my soul  
I wanna be a world changer
