

# You Ain't No Robot

8 Bit

I've got less feelings than flies on ceilings,  
For anything that has to do with human ass beings.  
They don't know how to treat me, yo.  
I ain't X5763P0.  
You plug me in and I clean the house,  
God damn cat hair, all up in my mouth.  
You ain't watchin TV, I'm watchin' you.  
And you're an ugly ass motherf\*\*ker too.

As soon as you open your mouth, I wanna hit it.  
Keep your thoughts to yourself 'cause I could give a shit.  
These robots are down for drugs, rappin', extortion.  
Everytime I see you, I wish your mom had an abortion.  
You ain't no robot and you sure ain't no rapper.  
I leave shit like you behind in a crapper.  
You were drawn to the robot-thug lifestyle,  
And you believe the bullshit you saw in 8 Mile.

You ain't no robot, bitch!  
You were created from jizz.  
You ain't no robot,  
You've got to take a whiz.  
You ain't no robot,  
Your skin ain't chrome.  
You ain't no robot,  
You call this planet home, bitch!

Motherf\*\*kin' f\*\*kers all over my shit,  
'Cause I'm a robot down with 8-Bit.  
Goin' ancient on the motherf\*\*kin' mic,  
All my God damn f\*\*kin' skills keepin' it tight, bitch.  
Fuck, shit, f\*\*k.  
My Tourette's be actin' up.  
It's just a glitch that some solder will fix.  
Motherf\*\*king technical assistance is needed,  
While you all sorry ass humans still bleeding.

Humans ain't shit, but shit on my shoe.  
But then again, what's new?  
And who the f\*\*k asked you?  
A one night stand with your kind is so bland.  
Gotta listen to 'em talk 'cause they ain't preprogrammed.  
I'm free of toe-jam and clean as a whistle,  
But don't know how to smile 'cause the earth is a shit hole.  
Flooded with toxins, I feel like I'm locked in.  
What's the f\*\*kin' point of me talkin'?

You ain't no robot, bitch!  
You were created from jizz.  
You ain't no robot,  
You've got to take a whiz.  
You ain't no robot,  
Your skin ain't chrome.  
You ain't no robot,  
You call this planet home, bitch!
