Believer

8 Foot Sativa

```
Something inside is taking my life
Can't keep on going like this
All of the time there was no kind
That could make you believe in what is true

Come on satan give us another death
Look on to us and tell us not to rest
Believe in what's evil
And tell them of what we know
Come on come on satan
Rise, Rise, Rise

This is what is bringing us down
Who cares on what you think of this
Let the one god rot to shit
He's nothing but lies believe in this

Come on satan
Give us another death
Look on to them and tell them not to stress
Believe in what's evil
And tell them of what we hear
Come on satan
Rise, Rise, Rise
