

A World That's Crazy

A Broken Silence

Yeah we're living in a world now, in a world now
In a world that's crazy
Yeah we're living in a world now, in a world now
In a world that's crazy

Dear children of mine, I hope you feel it inside
'Cause my love, no words will describe
You've been on this earth a short time
But seem ready to heed its urgent war cry
The reason for this letter of mine
Is the same reason you see me fed up at times
The planet got a beauty we need to respect
I find that is a duty some seem to neglect
That's why your momma loves growing her veggies
So they're not toxic or modified genetically
Can you imagine our destiny
If we put money secondary to doing things ethically
Man we got lucky, we're Australian born
Your grandparents came from places war-torn
Malinta, Bosnia, north of Warsaw
Their hardships never dawned on our doors
That's why I tell ya, the world it's yours
That's why I tell ya, the world it's yours
See the beauty through all its flaws
So I'mma tell ya, the world it's yours

So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that's crazy
Born into a world that's crazy

Dear children of mine, I hope you live a good life
Happiness is within your define
Damn right, we have struggled at times
But struggle's beautiful when love is entwined
It's true the richest few got a monopoly
But taking more than I need is not for me
Your momma stays home to feed us properly
She got you kids eating spinach and your broccoli
Just saw you catch your first fish
Time flies, soon you'll have your first kiss
Humility, you'll have to learn this
But evil lurks, so pack a firm fist
What you read can bring wisdom
Please don't make material things your religion
Hope you travel, but never be distant
And know, I'll always be there in an instant

So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that

In a world that's crazy
So you're living in a world that's crazy
Born into a world that's crazy

So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that's crazy
Born into a world that's crazy

So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that's crazy
Born into a world that's crazy

So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that's crazy
Born into a world that's crazy

So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that's crazy
Born into a world that's crazy

So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that, in a world that
In a world that's crazy
So you're living in a world that's crazy
Born into a world that's crazy
