

I'm Not Talking

A.C. Newman

No one wants to weight things down
But they tend to fly away
And rescue teams will look for days.
I like the way things are,
I'd say abandon the search
For not throw out this long work.

And until then, until then,
Until that reason, they gotta shot and read out that.
Until then,
I'm not talking.

Yet for, remember this
It's always been a long shot of words
For not throw out this long work.
I don't mean to weight things down,
The fortune teller, let's just see
Whether all comes true, we'll see.

And until then, until then,
Until that reason, they gotta shot and read out that.
Until then,
I'm not talking.

No, I've never been close, I thought you should know
No, I've never been close, I want you to know.
No, I've never been close, I've never been close,
But I've never been the wrong way.
No, I've never been close, I've never been close,
But I've never been the wrong way.

I like the way things are,
Time to abandon the search,
For not throw out this long work.

And until then, until then,
Until that reason, they gotta shot and read out that.
Until then,
I'm not talking.
