

Stronger Than Jesus

A Camp

Who told you love is the Alfa and Omega?
And that your heart will lead you to the only one?
It's a curse, it's the hammer that will break you,
It's a poison hidden in a bon bon

Don't you know love is stronger than Jesus?
Don't you know love can kill anyone?
Bring it on; wars and diseases
You know that love can do you like a shotgun

Can't resist them, the sailors and the soldiers
Taking aim, a rabbit on a rifle range
Pay no mind to what your mama told you
You're the fool who's chasing down the candy cane

it's a riddle how lovers can stay alive
but we bloom and breathe in all decline

Don't you know love is stronger than Jesus?
Don't you know love can kill anyone?
So bring it on; wars and diseases
You know that love can do you like a shotgun

o, oh no
o, oh no

See the people heading for disaster
standing in line just looking for a little fun
love is a fire, a hot hot blaster
with a vengeance burning in the Congo sun

We'll believe there's trust in strangers
any monkey looking like a saviour
It's a riddle how
we're still living now
Oh, how little we know, oh

Don't you know love is stronger than Jesus?
Don't you know love can kill anyone?
so bring it on; wars and diseases
You know that love can do you like a shotgun
