

## NY Man

## A Girl Called Eddy

Oh NY man  
Better than the other man  
Oh, NY man  
You're the only thing I understand  
Since I left the neighborhood  
My spirits gone and I'm not feeling so good  
And everything you said would happen all came true  
They do things really different here  
They don't do like you do  
Oh NY man  
I hear the subway see us walking hand in hand  
On autumn afternoons  
Smoking on fire escapes through summer moons  
  
Since I left the neighborhood  
My song is sad and I'm not feeling so good  
I called you from the airport just to say hello  
I wanted you to stop me  
Not to let me go  
I liked the me that I was when I was with you  
Oh NY man  
I left rich but I'm back cap-in-hand  
Oh, what a fall its true I've made a mess of it all  
Since I left the neighborhood  
My spirits gone and I'm not feeling so good
