

## Matter Of Sight

### A Life Divided

Please help me my shoes worn out  
In the middle of the walk  
Everywhere I look around  
I can hear you talk  
Not to scratch the surface off  
Not to walk this road

Tell me what it's all about  
Could it be that dark?  
Whispering without a sound  
Did we fall apart?  
From everything we did insist?  
From anything at all?

So let me go  
Let me show  
Let me know  
That I do know wrong from right  
Well it's just a matter of sight

I'm constantly afraid to be  
A shadow without wall  
So I step inside your factory  
Try to please you all  
But in the end I have to see  
It didn't stop my fall

Don't you hear it calls my name  
I'm better off to leave  
I pack my jacket full of stains  
Please forgive me  
For everything I used to be  
If you, if you noticed me at all

Please help me my words ran out  
In the middle of the song  
And everyone who is around  
Help to sing along
