

# In the Sleeping Death

## A Pale Horse Named Death

Inside my tomb, feel all alone  
Grabbing the razor, as I cut to the bone  
Lay here in silence, listen to drops  
Watch the blood flow -  
Watch till it stops

With my broken heart,  
So sad I've got to go away  
As I lay and take my last breath  
In the sleeping death

As I lay in, pool of my blood  
Life is passing before my eyes  
Forget the times and leave all the past  
Forever sleep, forever gone

With my broken heart,  
So sad I've got to go away  
As I lay and take my last breath  
In the sleeping death

As they bring me down  
In the sleeping death

With my broken heart,  
So sad I've got to go away  
As I lay and take my last breath  
In the sleeping death
