

A Hard Nut To Crack

Aaron Neville

I play the game of the modern romeo but never in my life did I
see
A woman as square as a pool table and twice as green
I gave you all of my money and all of my loving too
But now you're goin' around just a telling everybody that I mad
e a fool of you
Girl I love you so, why I love you I just don't know

I ask the man from up above, help me to save your love
I want you
You're a hard nut to crack
You take a strong man and break his back

I don't know but I've been told, next to you my life's been col
d
You're a demon, Girl, you know you're outta sight

Girl I love you so, why I love you I just don't know
Ask the man from up above, help me to save your love
I want you

Know the guy you're giving my money
And you come home and call me honey
You look like you made a resolution, took my best friend John a
nd put him in an institution
You're a demon, Girl you know you're outta sight

Girl I love you so, why I love you I just don't know
I ask the man from up above to help me to save your love
I want you
You're a hard nut to crack
