## **Sweet Little Mama**

## **Aaron Neville**

There's a new girl in my neighborhood She's a sweet little thing, she looks real good She gets everybody's attention around They call her sweet little mama

All the boys wink when they see her Even the girls smile when they meet her Everybody's trying to be first To hold sweet little mama

She got a certain secret in her smile That makes you want to stay awhile But the minute you get too close She bursts out with a loud, loud cry

Stop by my house and you can't miss her This little girl is my little sister She's about nine days old They call her sweet little mama

Say she got a certain secret in her smile That makes you want to stay awhile The minute you get too close She bursts out with a loud, loud cry

Stop by my house, you can't miss her This little girl is my little sister Well, she's about 9 days old They call her sweet little mama
