

# That's The Way She Loves

Aaron Neville

With her mind far away from mine  
She's mostly sincere most of the time  
Yeah

That's the way she loves, that's the way she loves, that's the way she loves  
That's the way she loves [Repeats]

With her strong desire to please  
Oppression to her, is like a disease  
Yeah

That's the way she loves, that's the way she loves, that's the way she loves  
That's the way she loves [Repeats]

Many times when she's alone  
She dreams and dreams and dreams  
Dreaming of a perfect love  
That never was, and would never be

With her heart placed in her hand  
She will go to the end and back if she can for me  
That's the way she loves, that's the way she loves, that's the way she loves  
That's the way she loves [Repeats]

That's the way she loves, that's the way she loves, that's the way she loves  
That's the way she loves [Repeats]

That's the way she loves, that's the way she loves, that's the way she loves  
That's the way she loves [Repeats]
