

Drivin' Song

Aaron Pritchett

I could sit at home another Saturday
and channel surf my life away
gonna grab my keys,
get behind the wheel
got no where to go,
just like the way it feels

Cuz life is short
and the road is long
i'll be punchin' dials
lookin' for a drivin' song

Ain't gonna stop for nothing
but a tank of gas
Take an old black road
that ain't on the map
Gotta little hula dancer
bobbin' in my back window
She's gonna stick with me
wherever i go

Cuz life is short
and the road is long
i'll be punchin' dials
lookin' for a drivin' song

The hours and the songs
and the miles fly by
Got all i need to clear my mind

Turn My headlights off
and crank the tunes
The only light that i need
is that big full moon
And i know that soon
this night will end
We'll have to head back home
but i'll worry about that then

Cuz life is short
and the road is long
i'll be punchin' dials
lookin' for a drivin' song
