

## It Is Finished

Aaron Shust

Your ending was our beginning  
Your last breath became our first  
Your suffering became our healing  
You were the way  
When no way could be found  
You were the way  
When no way could be found

Every thing has been done  
The cross is the proof we have won  
For ever Your power over comes  
Your life has defeated death  
It is finished!

Our future our hope is found in  
The promise we're in your hands  
Our rescue, you've paid our ransom  
You were the way  
When no way could be found  
You were the way  
When no way could be found

Every thing has been done  
The cross is the proof we have won  
For ever Your power over comes  
Your life has defeated death  
It is finished!

All that you started, you have completed  
All that you promised, you have fulfilled  
All that you challenged, God you have conquered  
As it is written; it is finished  
All that you started, you have completed  
All that you promised, you have fulfilled  
All that you challenged, God you have conquered  
As it is written; it is finished

Every thing has been done  
The cross is the proof we have won  
For ever Your power over comes  
Your life has defeated death  
It is finished!
