

# Thank God For Country Girls

Aaron Watson

Hold on my buddies  
On the block good bye  
As we drove away I wiped a tear from my eye  
I thought my life had come to an early end

But this is where the story begins  
My daddy promised me I'd make new friends  
But still I wondered how in a town of only 10  
There at the dairy queen my first night  
Have mercy, it was love at first sight

Thank god for country girls  
Big blue eyes and long blond curls  
I wouldn't miss this for the whole wide world  
Thank god for country girls

She was all by herself sittin' at a corner booth  
Wearin' a summer dress and a pair of cowgirl boots  
I heard her hummin' a Meral Hagard song  
I looked down, my heart was gone  
I walked up to her, she saw my hesitation  
I asked if she had a dinner reservation  
She said I'd love to have your company  
I said hello love, goodbye mister lonely

Thank God for country girls  
Big blue eyes and long blond curls  
I wouldn't miss this for the whole wide world  
Thank god for country girls

No, my friends back home were missin' out  
So they came to see what the fuss was all about  
Before the first night had come and gone  
They were all singing my song

They said,  
Thank god for country girls  
Big blue eyes and long blond curls  
I wouldn't miss this for the whole wide world  
Thank god for country girls  
Thank god for country girls
