When Those Aggies Move To Austin

Aaron Watson

You \(\text{Tre the devil} \(\text{S} \) daughter in disguise So don \(\text{Tte try to hide the fire in your eyes} \) You must be stupid cause you just don \(\text{Tte that hell frozen over is warmer than my love for you } \)

When all those aggies move to austin And beaumont is covered in snow When the wind don It blow in amarillo Darlin I then you can come back home

You sure can shake your little round behind
But your hour glass figure won□t buy my time
You know how to work it lord knows it□s worked before
This time you leave your butt will have the imprint of the fron t door

When all those aggies move to austin And beaumont is covered in snow When the wind don It blow in amarillo Darlin I then you can come back home

When fort worth is east of dallas
And texans forget the alamo
When lubbock opens up a ski resort
And the brazos is straighter than an arrow

When all those aggies move to austin And beaumont is covered in snow When the wind don It blow in amarillo Darlin I then you can come back home

When all those aggies move to austin And beaumont is covered in snow When the wind don It blow in amarillo Darlin I then you can come back home But don I hold your breath Then you can come back home
