

Magnetic Road

Aaron

Magnetic road

I'm an insect hypnotized by your glowing
I drive fast, speechless denuded
I'm facing this magnetic solitude
Oh, I'm getting bigger, as the sun goes down
My shadow stretches slowly on the ground

Equal the eagle, the river, the child
Soon each of our shadows, will unite as one
In concrete is the world, that I'm running from
The daylight is gone, I'm coming home

Magnetic road

Give me shelter to my dreams
Please give me back my self esteem
Led astray by the moon
I'm riding on the edge of salvation
Oh, the air is thicker, as the sun goes down
I'm watching the shadows growing on the ground

Equal the eagle, the river, the child
Soon each of their souls, will echo in mine
Equal in the silence, revealing that throne
Daylight is gone, I'm going home
I'm going home
