

# Heart Of The Country

ABBA

A candle burns in the  
Heart of the country  
The flame fades though  
I see to it sadly  
It takes me further away  
than I have ever been

I wait and the darkness comes  
I pray for my only one  
And I wonder if you ever  
Will see this land again

We took this land  
And we brought it goodness  
it's taken everything  
And left only emptiness  
I am not broken  
Although I have the seeds in me

I wait and the darkness comes...

I hide my face against the sun  
I hide my fear from everyone  
But I've had enough of secrets  
They're all lies  
we're scared to tell  
I just need someone to be with  
I just need to say you fell

There's nothing out here  
But me and a whisper  
And now it's falling  
I won't even listen  
I watch the fall and it's  
Time that I was leaving too

I wait and the darkness comes...
