Shine

You give me love You give me love You give me love You give me love You give me

In the morning see you shine Feel your body moving mine The twilight slowly turning I watch you walking away

You give me love, you make me shine Clear in the midnight sky My fantasy makes me shine Clear in the midnight sky

Don't let the sun go down Don't be fooled by the changes you see Interpretations vary once in a while Don't close the door on me

In the darkness see you shine Move your body close to mine I'm feeling excitation I feel a perfect vision My fantasy tonight

You give me love, you make me shine Clear in the midnight sky My fantasy makes me shine

Cool as Ice, I broke away, did I Catch your love in time More communication More communication, that's all I need And like a star I'll shine

You give me love, you make me shine Clear in the midnight sky My fantasy makes me shine Clear in the midnight sky

In the darkness see you shine Move your body close to mine I'm feeling excitation I feel a perfect vision In the darkness see you shine Move your body close to mine I'm feeling excitation I feel a perfect vision I feel a perfect vision My fantasy tonight

You give me love, you make me shine...
