Always is always forever
As one is one is one
Inside yourself for your father
All is none all is none all is none

If I started murdering people there'd be none of you left
If I started murdering people there'd be none of you left
If I started murdering people there'd be none of you left
If I started murdering people there'd be none of you left

It's time to drop all from behind us
The illusion has been just a dream
The Valley of Death may not find you
Now as then on a sunshine beam
So bring only your perfection
For then life will surely be
No cold no fear no hunger
You can see... you can see

All the fuckin' pigs must die now! - So bring only your perfect
ion
All the fuckin' pigs must die now! - For then life will surely
be
All the fuckin' pigs must die now! - No cold no fear no hunger
All the fuckin' pigs must die now! - no hunger.. you can see

If I started murdering people there'd be none of you left
If I started murdering people there'd be none of you left
If I started murdering people there'd be none of you left
If I started murdering people there'd be none of you left

Always is always forever
As one is one is one
Inside yourself for your father
All is none all is none all is none
It's time to drop all from behind us
The illusion has been just a dream
The Valley of Death may not find you
Now as then on a sunshine beam
So bring only your perfection
