

# Across the Universe

Aborym

Anything and everything is meaningless  
I had a dream which was not at all a dream  
I was lifted up on a rarefied atmosphere  
Darkness stole my certainties across the universe

Now I see... the pain all falls behind  
Our nightmares are in our sights  
Now I see... behold the disgrace of our lives

In space, a vengeful fleet waited  
Then the furred strangers arrived with a plan to save Earth's children  
But the General wasn't sure if he could trust an Alien offer

Millions of lights we have never seen  
I approach this in a state of trance  
Hyperfast unreal journey across the universe

Sucking hallucinatory acid in the system

Now I see a red light from the satellite  
Little gods are trying to escape by flying away  
A star is only glitters when it shatters in the night  
Their capsules are burning swallowed by the dark
