

Beneath The Skin

Abscess

Come with me where the dark dreams speak
Leave this dying world
Black holes feeding on souls
Blinding blackness of misery

Blood full of skin
A place of torture
Beneath the skin

Kneading the flesh
Open the wound
Bleed out the poison
The seed is entombed
Drain your shell
Of the hell within
A numbing death
Release the breed of insanity

Blood full of skin
A place of torture
Beneath the skin

The breeders of death
Calling me
These dreams of darkness
Will never set me free
Called back to host again
The unborn seeds
Beneath the skin
