

Burn, Die and Fucking Fry

Abscess

blistered flesh starts to peel
your dying scream barely a squeal
agony; infinite pain
bloating bladder begins to drain
final sight before eyes poach
hands on fire, your children toast
nothing left but stench of flesh
searing pain and fear of death

burn,die and fucking fry
scream with pain and fucking die
burn, die and fucking fry
scream with pain and say goodbye

cracking sounds releasing steam
molten pus, bloody stream
horror for eyes who have seen
charred remains fill their dreams

burn,die and fucking fry
scream with pain and fucking die
burn, die and fucking fry
scream with pain and say goodbye

sizzling welts-Clint
